

Terms & Conditions

1. The Transborder Express Discount Card (TDC) is a stored value card for use on Deane's Transit Group route service buses. It cannot be used as an EFTPOS or Credit card.
2. The minimum value that can be added to a TDC is \$10.00.
3. The TDC should be handled and stored carefully. Do not bend the TDC, place it near a magnetic field or expose it to extreme heat or cold.
4. The TDC is fully transferable and may be used by others if lost or stolen.
5. Lost or stolen TDCs should be reported to Deane's Transit Group immediately so that the TDC can be disabled. Deane's Transit Group takes no responsibility for the stored value remaining on a TDC not reported as missing.
6. The TDC purchase fee and any stored value remaining on the TDC are only refundable if the TDC is returned to Deane's Transit Group in a working condition. Furthermore, refunds will only be issued to the original cardholder, and only upon sufficient proof of identification.
7. Deane's Transit Group recommends that all receipts of validation be retained by the cardholder. It may not be possible to verify the stored value remaining on a TDC if the TDC is not available for presentation or is not in a working condition.
8. The Transborder Express Discount card can be used on all Deane's Transit Group services.
